## AMERICAN IDIOM OF THE MONTH

### ***“Blow off steam”***

#### **Meaning:**

To release built-up emotion or frustration, to do or say something to relieve strong energy

#### **Origin:**

The phrase “blowing off steam” comes from steam engines where steam would build up from the heat necessary to power the engine. As the steam accumulated, a relief valve would release the pressure to keep the engine from exploding thus “blowing off the steam.” Over the years, the phrase was applied to people as a way to express the need to relief pent up feelings, annoyances, stress, etc. This can be through exercise, social activity, relaxation, or, unfortunately more commonly, shouting and venting.

#### **Example:**

Franklin could almost feel Natalia's tears through the phone. “I didn't mean to fly off the handle at you last time we talked,” she sobbed, “I was just blowing off steam from a long week at work.”
